

Forcefield Base Layer shirt and pants, £55 (shirt), £33 (pants)

Tester: Andy Downes

Tested: Six months/5500 miles

What's good? I wore this base layer for a ride across Europe earlier this year – 2500 miles in four days – and it was brilliant at keeping me cool and fresh despite high temperatures. I've worn it on track days and while riding all day in the heat of summer and it keeps you cool, stops your leathers sticking to you and remains comfortable. It hand washes in a hotel sink and dries fast.

What's not? Nothing of any real note. It can snag and pull if something jagged comes in contact with it but that's the nature of the thin material. Cheaper alternatives are available but don't work as well in my experience.
